

## STANDATHON

The nations first STANDATHON is happening right here in the oldest town in Maine. Our own Viva Kittery reporter Crutchin S. Moker is putting this unique event together. One of the foundations to benefit is the Foundation of Greater Awareness, commonly known as FOGA.. . We realized that the old fashion telethons to raise money for nobody in particular, but still a worthy cause, are starting to falter. Other fund raisers like selling 5 pound candy bars, cookies made 6 years ago, and other astounding products are no longer pulling the heart strings to get that donation. Crutchin figures that with today's 24 hour satellite observation along with a little help from AI , we can show that you can make money here by standing still, albeit 6 feet apart for the proper social dimension.

Each contestant will be provided a glow in the dark 15 inch diameter hoop to stand in. The contestants will be checked periodically by sky eye satellite to insure no cheating. Each contestant pays only 5 dollars for the hoop. It will start on the first day of summer and will end literally with the last woman or man standing. You must be at least 18 to join the public event but an at home version will be provided for kids (kids hoop only \$1.99). You simply stand in one place for as many hours, days or months as you can. There are a lot of opportunities for “off track betting” here. The money raised will be

split in the following ways. Three top prizes for the last three people.  
Of course, FOGA and then the rest of the money will go to a Darn  
Good cause! Details for this contest will be made public soon!!

This is a particularly good event if you don't have a lot going on.,
