## We Know

Viva Kittety reporter, got some local off the bench reporting in on this story. Reporting to you, Gregor Stavlin, .... on important smokers news.

A fresh new lawyer has challenged and beat the the consumer (complainers) , court cases against cigarette companies. WHAT A RELIEF was the catch phrase heard from most smokers. No more annoying remarks like smoking causes cancer or it smells or on and on and on. Smokers finally yelled back, "We know"..

Smokers from around the world gathered at the hearings for the case. MILLIONS of smokers gathered yelling.. "We Know" "We know Already".. Hearing the cries of the people outside , the judge looked at the opposition of the tobacco companies and said... They know. Case dismissed!@

It was better than the Scopes Trial!!

The only statement needed on cigs now is Caveat Emptor! Because smokers have been so targeted the judge also implied that there should be a national smokers day and a celebration of our smoking heroes who in defying every law of nature and man have finally proved it's OK after all. Sort of....
