

Pursuit of Happiness

The government is adding a new disability to its list ... post generational delineation disorder.

What is post generational delineation disorder and how do you prove you have this new and exciting, not withstanding lucrative, disability is something you suffer from?

First of all .. a think tank based solely on the declaration of Independence, the fore-bearer of the Constitution; which clearly states that all " men ' , and with consideration, ' all people" are created equal. met in subcommittee to discuss the matter. A high minded group to say the least!

Noting this is the base of what became the legal system of laws: that insists that "no man' is above the Law. Whereas all men ...or people..are created equal , then the ending result of course is that all people should be successful prosperous and happy!

Recently, in the past few months the Congressional Committee of Happiness met behind closed doors for their ultra secret meeting. Wherein they observed that not everyone residing the US was in fact successful, prosperous and happy.

In the notes of the Secretary of Happiness it was revealed that the Committee was in such shock, quoting here... 'We had no idea that

this was happening", and one other recorded remark was a member shouted out "Let them eat cake!".

So it was revealed unto them that people who were not successful and happy either were mentally disabled or subject to some other more extreme situation. In a matter of hours AI was able to determine the more extreme cause as, post generational delineation disorder.

To get your check, and back-pay with interest all you have to do is show that you are unsuccessful and unhappy! The glitch here AI proposed is that some people are happy no matter their condition. These "happy people" will not be compensated. So get yourself ramped up with the most complaining attitude possible and get into linear fashion for this "river of goodness" flowing across the land!

Remember, if you can show that you have been unsuccessful and unhappy your entire life some checks with interest on back-pay could reach 400 million!! Yahoo!
