

New Restaurant Sensation

Barfiie's restaurant chain is opening a new location nearby. Its an unusual dining experience where its more like a "real home".. with " put together" meals a real living room , and real TV dinner trays so you can sit in the living room and watch TV while you are eating.

Barfiie's isn't the new age "serve safe" environment. We simply leave food laying around, you buy a ticket for 5 bucks outside and just come in and look around, just like being an " in-law" coming over to eat.

The location has no sign, no advertising and there's only parking for 5 people. Its in a rural setting so you can play outside and then come in use the bathroom and get a popsicle, or a cookie or something.

Sometimes there are candy bars laying around, sometimes there are english muffins or mashed potatoes left on the table. You simply use the microwave to heat up whatever you find .

The owners go shopping three times a week and you can eat all you want...of whatever you find. (basically their kids grew up and left home)

The locations are usually in a trailer park.. Barfiie's has the traditional black and white awning with a big yellow B on it, so you

know you're at the right trailer.

There's a coffee can outside to put your 5 dollars in and a ticket stub that allows you to eat and hang out in the living room. If you happen to see any animals, let them out!! PLEASE!

Other than that Barfiie's is open 6am to midnight daily, ... Come to Barfiie's and remember..you never have to call ahead.

There's a phone on the wall though if you want to hang out and order takeout @locally!
